THE MOST VERSATILE SHELVING SYSTEM ON THE MARKET

Quick to assemble and built for heavy-duty industrial use, the Spider® Shelving System meets all of your storage needs. With its vast range of accessories, it is the most versatile and flexible shelving system on the market.

- By combining shelving and Mini-Racking, you can extend the range of possibilities available
- By adding modular drawers, you can organize your small parts more efficiently
- Vertical expansion is also possible with our multi-level shelving system

Designed for intensive use, our modular storage system uses the space you have available to its full potential, in areas such as warehouses, parts departments, repair shops and distribution centers.

Trust in our expertise and enjoy peace of mind, knowing all your current and future storage needs will be met.

R5SEE-871809

THE ROUSSEAU DIFFERENCE

R drawers can be installed in Rousseau's Spider® Shelving System but also in over 35 commercially available shelving brands.

Easy assembly: The shelves are installed on the posts with four 14-gauge steel compression clips for quick and easy reconfiguration.

Mini-Racking can be added to maximize storage options.

The multipurpose common post is a key structural component. Its unique tubular T shape provides up to seven fixing zones for different applications. It also has a hollow center to prevent interference between sections.

Each component has been designed to be easy to use.

NOTE: The unique design of the Spider® post is a trademark of Rousseau Metal Inc.

SHELF LOAD CAPACITY

Shelving load capacity tests are based on ANSI MH28.1 Shelving Manufacturer Association (SMA) standards.

These load capacities include a safety factor and are valid for an evenly distributed load. The capacities specified are in pounds.

NOTE: SH22, SH24 and SHC reinforcements are not factory installed on SH20 BOX shelves.
